It's been an honour and a privilege to walk alongside you as you step into your power, learning to think creatively and strategically, and gaining confidence along the way.

My words of wisdom are to power onward using the new skills you have honed in the program, and when you think you have it figured out, always run your numbers!!!

Janis Hutton, Manager and Business Coach/Advisor

It has been a pleasure to have supported the 34 women in our program. I admire each and every one of you for your tenacity to complete this demanding program, and I wish you success on your entrepreneurial journey.
